

## Congratulations on your stone surface purchase!

Here is a checklist for you to track the rest of the process:

- € Select the stone material for your project
- € Select your edge detail
- € Select your sink
- € Pay deposit
- € Our templating professional will come to your home to measure for your custom project on \_\_\_\_\_
  - o **You should be present to review all project details with our Templater**
  - o Please have your **sink at the template location** so that our templater may bring it back to Designer Stone for custom fit measurements.
    - if you are getting a new farm sink, it will need to **be fully installed** before template
    - if reusing an existing drop in sink, please have sink pulled out of cabinetry for measurement
  - o Please have your **faucet on site** so that we may obtain brand and model numbers.
  - o New cabinetry **must be fully installed** before template
  - o If you are keeping the same cabinets, all counters must be clear before template
    - current countertops do NOT need to be removed for template,  
however you **MUST** have them removed before installation day
  - o Please have all appliance moved away from countertops for measuring purposes (except dishwasher)
- € Our CAD Specialist will send you an email of the **stone slabs you selected**. On that, there will be an overlay of your countertop pieces. At this time you will either confirm the layout or contact us with any questions/ideas. Please reply ASAP. **Delay in confirming your layout will cause your installation date to be delayed.**
- € We will call you with the final total for your project
- € Pay the balance in full prior to install

THE  
**Designer STONE Company**  
*Affordable Elegance to Last a Lifetime*

€ Installation day! \_\_\_\_\_

- Have all existing countertops removed from the cabinetry
- Unhook all plumbing and electric
- Have all appliances removed from the area (except dishwasher)
- Have all items removed from the sink cabinet for your sink installation
  - Lastly, wait 24 hours after the sink installation before hooking up any plumbing
